Pairing

Pair Account with Device

Pressing the pair button on you eco-driving device will activate it's pairing mode. This will allow the device to connect the web application and pair with your account. The device will display a 6 character alphanumeric key, which is it's identifier, that you can enter in the input below to pair the device with your account.

Device Key

PAIR

Device Settings

Vehicle Specifications

Curb Weight

The weight of the vehicle when it's not being used and resting on a flat surface, including a full tank of fuel and all standard equipment and excluding passengers and cargo.

kg

Width

The width of the vehicle, including side-view mirrors.

m

Height

The height of the vehicle from the ground to it's roof.

m

Ground Clearance

The vertical distance from the ground to the bottom of the vehicle.

m

Different Vehicle?

Is the device now going to be used in a different vehicle?

Yes

No

Default Journey Settings

These settings will be automatically applied at the start of each journey you make, but can be altered during the journey.

Passenger Count

The number of passengers in the vehicle, excluding the driver.

m

Estimated Cargo Weight

The estimated weight of the vehicle's cargo including carried items, items in the boot and any exterior attachments.

m

Roof Attachment

The type of roof attachment fitted to the vehicle, if any.
